Location: Bengaluru, Karnataka, India

Professional Summary

Software Engineer with 4+ years of experience building scalable, high-performance web applications and distributed systems. Strong expertise in Node.js, Microservices Architecture, and performance optimization. Proficient in TypeScript, React.js, Next.js, Vue.js, and Astro.js, with hands-on experience developing efficient, maintainable, and production-ready applications across frontend and backend systems.

Experienced in building modern SaaS products, scalable APIs, responsive UI systems, and CI/CD-driven deployment pipelines. Comfortable working in Agile product teams and collaborating across engineering, design, and QA functions.

Skills

1. **Core Languages:** TypeScript, JavaScript, Python, HTML, CSS
2. **Frontend:** React.js, Next.js, Vue.js, Astro.js, Redux Toolkit, Tailwind CSS, Material UI
3. **Backend:** Node.js, Express.js, Django, JWT Authentication, Mongoose
4. **API & Integrations:** REST APIs, GraphQL, WebSockets, Webhooks, Swagger, Postman
5. **Cloud & Database:** AWS, GCP, MongoDB, Redis, MySQL, Cloudinary
6. **Architecture:** Microservices, Micro-Frontend, MCP, Monorepo Architecture
7. **Testing:** Jest, Vitest, Puppeteer, Playwright, Cypress, Unit Testing, E2E Testing
8. **DevOps & Deployment:** Git, GitHub, CI/CD, Docker, Kubernetes, GitLab, Azure DevOps, Vercel, Netlify
9. **Web Performance & SEO:** SEO Optimization, Schema Markup, Accessibility, Web Performance

Education

Visvesvaraya Technological University

Bachelor of Engineering – Electronics and Communication Engineering

2018 – 2022

CGPA: 8.0

Work Experience

Codewave Technologies

Software Developer | Apr 2025 – Present

1. Built and optimized scalable React.js and Next.js applications with reusable component architecture.
2. Developed instant messaging systems and multi-repository platform workflows.
3. Integrated REST and GraphQL APIs for real-time and dynamic application experiences.
4. Contributed to CI/CD automation using GitLab and Azure DevOps pipelines.
5. Improved frontend performance, maintainability, and deployment workflows.

Winline Technologies

Software Developer | Feb 2024 – Mar 2025

1. Delivered full-stack Next.js applications with responsive React-based interfaces.
2. Integrated REST APIs to support dynamic business workflows and user experiences.
3. Improved SEO performance through metadata optimization and schema markup implementation.
4. Collaborated closely with backend teams working on Python and Django APIs.

Upgradableweb Technologies

Full Stack Developer | Apr 2023 – Jan 2024

1. Developed high-performance Next.js applications with Server-Side Rendering (SSR).
2. Built responsive UI systems using Tailwind CSS and reusable frontend components.
3. Implemented API routes, authentication systems, and backend workflows using Node.js.
4. Worked on scalable frontend architecture and deployment optimization.

Plausibility Solutions

Junior Frontend Developer | Aug 2022 – Mar 2023

1. Built scalable and responsive frontend interfaces using JavaScript, TypeScript, and React.js.
2. Implemented state management using Redux and Context API.
3. Integrated APIs and optimized UI rendering for real-time user experiences.
4. Collaborated with teams to deliver maintainable and production-ready features.

Certificates & Upskills

1. AI Upskilling Certificate — [Qualcomm](#)
2. Prompt Engineering / LLM / RAG Certificate — [Simplilearn](#)
3. Advanced Prompt Engineering with ChatGPT Certificate — [UpGrad](#)
4. GitHub Copilot — Copilot Fundamentals · [Microsoft Learn](#)
5. Conversational agents development — · [Google Agent Development Kit](#)
